ABOUT ME

I am a front-end web developer with a very good hands-on experience in multiple programming languages including performance, functionality, integration, system acceptance and user, graduated from Al-Quds University (Abu Dis), I also have very good experience in graphic design and worked as a freelance designer since 2018. My software graduation project was a website to sell and deliver fast food online and my hardware project was a smart barking system. I am a self-motivated person, motivated to learn more and more.
