PROFESSIONAL EXPERIENCE

Trainee, Buthor Company

08/2022 – 12/2022

From the Tech Savvy program, I got 195 hours of training in the field of design flutter.

- I received leadership in the group I was in
- Working on a fAIItball project with a team and I have 4 screens to do and take modifications from the code reviewer after checking my code.
- Receiving assignments via Trello
- Upload tasks on github

COURSES

Flutter Clean Architecture

2022 – 2023

Training on the udemy platform to build correct project structure using flutter.

HTML

2022 – 2022

Training through the initiative of one million Jordanian programmers on the Udacity platform

CSS

2022 – 2022

Training through the initiative of one million Jordanian programmers on the Udacity platform

NGCN Program

09/2020 – 11/2020

The virtual exchange initiative between Arab and American universities, where the training provided for finding a future idea that would benefit society, and he worked on designing it and developing communication with the West. We were a team, some of us Arabs and the other American

PROJECTS

fAItball

10/2022 – 12/2022

Flutter Application

It is a group project in design flutter training within a seed company, and specific tasks were given to each person.

- Created Rest password screen
- Created Parents Notification Screen
- Created Add academy and invitations Screens and connect api with screen

Automation of the Palestinian Post - Graduation Project

03/2022 – 05/2022

Laravel Website and Flutter Application

The project is about automating the operations of the Palestinian Post by building a website and an application for the Palestinian Post. We consisted of a team of 4 people.

- I built the application
- created an API to connect the application to the website.
